June 14th, 1915

Miss U. Saunders,  
50 St. George Street,  
Toronto.

Dear Miss Saunders:

I have your letter with regard to the possibility of there being an opening for your sister in the German Department of University College. I will keep the letter before me, though at the present it seems to me unlikely that there will be an opening which might be offered to her. We are expecting a gentleman from England to take a new position, and probably we shall endeavour next year to do the work with our present staff. I shall be glad, however, to see you some time with regard to your sister's work and qualifications.

With kind regards, I am,

Yours sincerely,

President.
